## Utility Fee Schedule 2023

Water connection fees are the sum of the Water Plant Investment Fund (PIF) and the Tap Fee for parts and labor. Larger meter sizes will be computed upon customer request for connection. Additional equipment such as backflow preventers may be required, at customer cost, for connection to the water system as set forth in the regulations.

### Water Fees and Charges

Meter size	Water PIF	Water Resource Fee	Tap Fee	Water Connection
3/4" Displacement or Multi-jet	\$ 16,609.00	\$ 2,851.00	\$ 1,518.00	\$ 20,978.00
1" Displacement or Multi-jet	\$ 28,235.00	\$ 4,847.00	\$ 2,003.00	\$ 35,085.00
1 1/2" Displacement or Class I Turbine	\$ 54,810.00	\$ 9,408.00	\$ 4,557.00	\$ 68,775.00
2" Compound Displacement Class I & II Turbine	\$ 88,028.00	\$ 15,110.00	\$ 6,686.00	\$ 109,824.00
3" Compound	\$ 194,325.00	\$ 33,356.00	\$ 12,537.00	\$ 240,218.00

Wastewater connection fees are the sum of the Wastewater Plant Investment Fund (PIF) and the Tap Fee for parts and labor. Larger sizes will be computed upon customer request for connection. 3/4" water meter requires a 4" sewer tap and a 1" to 3" water meter requires a 6" sewer tap. Larger than 3" water meter may require a larger sewer tap size dependent upon use. Additional equipment such as grease interceptors may be required, at customer cost, for connection to the wastewater system.

### Wastewater Fees and Charges
