

2024

# PUEBLO WEST METRO DISTRICT: CAPITAL PROGRAM

Utilities presents:

CIP Tracking No **24.WTR.006**

Proposed Year(s): **2024**

## Leak Detection Equipment

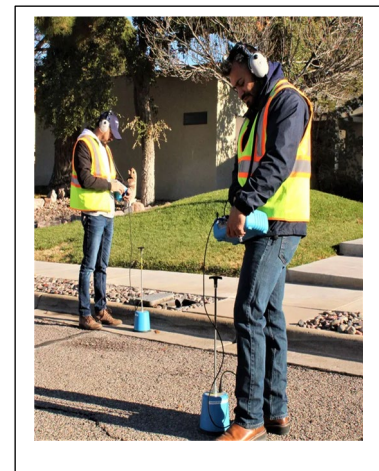

### Description:

The utilities department intends to purchase new leak detection equipment.

### Justification:

Current leak detection equipment is dated and is only one type of technology. There are newer radar and acoustical technologies that the department would like to take advantage of. Repairing water leaks are but one important way to save this valuable resource. The District's Water Conservation Plan, approved by the Board of Directors and the state of Colorado, also calls for being proactive in finding leaks and not just waiting until water surfaces.

### Funding Source(s):

- General     
  Utility Enterprise     
  Community Dev.  
 Other     
 If other, describe: \_\_\_\_\_

### Project Overview:

Category:    
 Type:
