Resurface Tennis Courts

Description:

The courts at Civic Center Park have not been resurfaced for a long time. They are starting to deteriorate, chip, crack, and become a hazard to users. We are looking to do something different this time there. We have four courts that will all be resurfaced. One of those courts will be turned into four pickle ball courts. So that would mean we would have three tennis courts and four pickle ball courts. The work would also include installing nets, fencing, and gates for the pickle ball courts.

Justification:

The courts are really in need of repair. We want to make all our facilities safe for those who use them. We had a company come down and look at them and will be giving us a quote within the next month. We have been asked many times to add pickle ball courts due to the sports increased participation. This is an opportunity to give a double usage and accommodate many more who want to play the game of tennis or pickleball.
